Sherry Rayn Barnett is a widely published music photographer, based in Los Angeles, who has been photographing our generation's finest musicians "in concert" for over three decades. From the early 70's to the present, Sherry has captured the essence of the live performance, spanning the world of pop, rock, jazz, folk, country and blues. Her dynamic onstage photographs & exclusive portraits have graced the covers of CD's, records, books and magazines and have featured musical legends as diverse as The Carpenters, Nina Simone, Janis Joplin, James Taylor, George Harrison, Joni Mitchell, Tina Turner, Bonnie Raitt, kd Lang, BB King, David Bowie and Prince at the height of their careers.

This special showing includes never seen before images of pop icons from the 70's to the present, whose music has become the soundtrack of our lives.
